Summary

AI Solutions Engineer & NLP Specialist dedicated to transforming advanced AI research into scalable business solutions. Combining technical expertise in LLMs, RAG, and automation agents with a solid understanding of **Digital Marketing** principles. Proven track record of designing end-to-end applications that drive operational efficiency, optimize marketing workflows, and ensure high ROI through data-driven decision-making.

Education & Training

Higher Institute of Computer Science , 6th of October, Bachelor's Computer Science **Oct 2021 - Jun 2026**

AI Diploma – Instant **(170 hours)** **Jul 2024 - Apr 2025**

AI Course – NTI & Huawei **(90 hours), Grade: 98.5%** **Jun 2025 - Aug 2025**

Summer Training Internship in NLP – NTI **(120 hours), Grade: 97.5%** **Aug 2025 - Sep 2025**

Work Experience

AI Instructor (Aitronix) **Oct 2025 – Present**

Empowering learners through hands-on, industry-driven education in Artificial Intelligence.

- Simplifying complex AI concepts for non-technical stakeholders and business learners.
- Mentoring project teams on the practical application of AI to solve real-world business challenges.
- Consulting on the design and architecture of AI-driven products for various industry use cases.

Freelance AI Developer & Solutions Architect **Aug 2024 – Present**

Designed and implemented several end-to-end projects in AI, Machine Learning, and Data Science, including:

- Architected and deployed end-to-end AI pipelines, collaborating seamlessly with web development teams (Backend/Frontend) to integrate intelligent features into practical applications.
- Designed a scalable AI CV Analysis Assistant utilizing RAG, Gemini LLM, and FAISS, significantly reducing manual data processing time.
- Delivered production-ready solutions deployed via Streamlit, FastAPI, and Microsoft Azure

Projects

AI CV Analysis Assistant — RAG + LLM

- **Role:** Led the conceptualization and feasibility study of an automated recruitment solution to streamline hiring workflows.
- **Solution:** Built a robust RAG pipeline using LangChain and Gemini API to automate the analysis and ranking of candidate resumes.
- **Business Impact:** Optimized recruitment efficiency by reducing manual screening time and providing data-driven candidate insights.
- **Integration:** Designed and deployed scalable APIs using FastAPI for seamless integration with existing enterprise HR systems.

AI Automation Agent (API Integration)

- **Role:** Developed a proactive AI agent to automate repetitive marketing and administrative tasks through advanced API integrations.
- **Solution:** Integrated LLM-driven workflows with CRM and communication platforms using function calling.
- **Business Impact:** Enhanced customer relationship management by automating lead responses and task scheduling, significantly improving operational response times.

Skills

Technical Skills:

- **Programming Languages:** Proficient in Python, C++
- **Databases:** SQL, MySQL
- **Data Analysis & Visualization:** Pandas, Pandas AI, NumPy, SciPy, Power BI, Plotly, Matplotlib, Seaborn
- **Business & Domain Knowledge:** Digital Marketing Principles, Consumer Behavior Analysis, AI Feasibility Analysis, Cross-functional Team Collaboration (Frontend/Backend), Project Planning & Workflow Automation
- **Data Techniques:** Data Collection, Data Mining, Feature Engineering, Data Preprocessing, Scrapping
- **AI & Machine Learning Frameworks:** TensorFlow, Keras, PyTorch, Hugging Face Transformers, LangChain
- **Machine Learning:** Supervised Learning, Regression Algorithms, Classification Algorithms, Unsupervised Learning, Clustering Algorithms, Semi-Supervised Learning, Time Series Analysis, AutoML.
- **Deep Learning:** Image Classification, Artificial Neural Networks (ANN), Autoencoders
- **Computer Vision:** Object Detection, Image Segmentation
- **Natural Language Processing (NLP):** RNN, LSTM, Classification, Transformers, RAG & Ai Agents, Speech Processing, LLMs (Large Language Models), Named Entity Recognition (NER)
- **Cloud & Deployment Services:** AWS, Google Cloud, Microsoft Azure, Git, Github

Soft Skills: Problem-solving, collaboration, leadership, adaptability, time management, communication, critical thinking, creativity, teamwork, and decision-making.

Languages:

Arabic (Native), **English** (Level B2)
